

Renewable chemicals from waste – securing the molecular value from waste streams

20 November 2015
London, United Kingdom

<http://rsc.li/waste-2015>

Themes

Chemicals from waste

High value metals and other inorganic chemicals

Bio-refinery approaches to recover molecular complexity as well as energy

New approaches/horizon scanning

Speakers

David Blomberg

Neil Bruce

Tony Duncan

Sarah Hosking

Johan Jacobs

Lynne Macaskie

Steve Martin

Steve Skill

Nick Thompson

Carol Wagstaff

Processum

University of York

Circa

Unilever

Millibeter

University of Birmingham

ZuvaSyntha

University of Swansea

Fiberight

University of Reading

Key deadlines

Poster abstract submission

27 September 2015

Registration deadline

6 November 2015
