**Featured Speakers**

**Professor Steve Chisnall** is the Director of Strategy and Planning at the University of Southampton. He had a successful career in the Royal Air Force, including posts as a Station Commander, Deputy Director Defence Policy in the MOD, Deputy Commandant of the Royal College of Defence Studies in London and a secondment to the Cabinet Office. He retired from the RAF in 2008 in the rank of Air Vice-Marshal. He is a visiting Professor to the War Studies’ Department at King’s College London where he focuses on strategy and leadership.

Dr Dong Huynh is a researcher in the area of trust, reputation, and provenance. He recently participated in the World Wide Web Consortium’s Provenance Working Group, releasing the PROV standards for provenance. His work has been applied in a wide range of applications to help ascertain quality of information, from multi-agent systems to crowdsourcing projects.

**Simon McKay** is a solicitor-advocate (all proceedings) in England and Wales and a member of the Law Society of Northern Ireland. He is a criminal and human rights lawyer and recognised nationally and internationally for his expertise in covert policing and surveillance law.

**Dr Denis Nicole** is a Reader in Electronics and Computer Science at the University of Southampton UK, where he leads the Electronic Engineering Degrees. He received his MA from St John’s College Cambridge and a PhD in Theoretical Physics from the University of Southampton. He is a Chartered Electrical Engineer, a Senior Fellow of the Higher Education Academy and a member of the steering committee of Southampton’s GCHQ CyberSecurity Centre of Excellence. His principal research interest is in the verification of software written in the C and C++ programming languages using “bounded model checking.”

**Professor Mark Nixon**’s interests lie within the field of automated biometrics where he has developed ground-breaking science in the recognition of static and moving faces, and gait patterns, attracting a significant amount of press interest, and academic regard. Mark has tested automated biometric recognition through the first co-ordinated study of spoofing biometrics.

**Micheál O’Floinn** is a lecturer in Cyber-Security Law at the University of Southampton and undertakes research on the resolution of jurisdictional conflicts, generated by cybercrime. He graduated from Trinity College Dublin and was awarded an LLM in Public International Law by the London School of Economics. Micheál has acted as a legal consultant for Nominet and the Law Commission, and worked at the International Criminal Court and the European Commission.

**Professor Vladimiro Sassone** is Director of CyberSecurity Southampton. His research focusses on trust, privacy and anonymity protocols. With a background in the Foundations of Computer Science, he is President of the European Association for Theory and Practice of Software and a member of the Council of the European Association for Theoretical Computer Science.

**Dr Craig Webber**’s work has explored crime on the internet, with specific interest in the darknet and in both internet crime and the consequence of digital identity and digital anonymity. He collaborates particularly with colleagues in Web Sciences, and with several agencies involved in understanding and policing real world and digital environments.
**Dave Allen** has been with the SEROCU since 2011 when he set up the Operations & Investigations teams. He is currently Head of Intelligence with responsibility for Cyber, Prison Intelligence, Regional Confidential Intelligence Unit, Regional Intelligence Unit, Covert Operations Unit, OPSY & GAIN. He has been in Policing for 27 years with secondments to the RCS & NCS. He has worked in armed operations & Public order command.

**John Boutcher** holds the post of ACC Joint Protective Services (covering Bedfordshire, Cambridgeshire and Hertfordshire) which includes major crime, scientific services, roads policing, dogs, armed policing and, cameras, tickets & collisions and public order & civil contingencies. He is the ACPO lead for Crime under the Children and Young Persons group and the ACPO lead on legislation relating to covert policing (RIPA) within the Crime Business area. As well as his national responsibilities as an ACPO CT Commander he was the Hertfordshire Gold Commander overseeing the Hertfordshire venue for the London 2012 Olympics. Jon has 27 years’ service spent mainly as a Detective in covert and proactive policing roles. He has also worked on Regional and National Crime Squads, targeting serious and organised crime groups with links to international networks and was responsible for a section of the ‘Flying Squad’ in London. In 2003 Jon joined the Anti-Terrorist Branch at New Scotland Yard as the Senior Officer for numerous national security operations. Jon was responsible for the ‘manhunt’ that identified and arrested the 21/7 failed terrorist plotters. He also led the investigation in Scotland following the Glasgow airport terrorist attack. He has worked within the Home Office as an advisor on Policing issues specifically related to national security and counter terrorism.

**Craig Jones** has been with the SE ROCU since 2012 as Forensic Manager. He was appointed as Head of the ACPO Regional Cyber Unit in August 2013, with a remit to build and develop a regional Cyber Crime capability for the South East Regional Police forces. Craig has 18 years investigative experience in both the public and private sector. In the late 1990’s he was responsible for setting up the first national, industry-based mobile phone investigation unit. He moved into the field of forensic investigations in 2000, firstly as a crime scene investigator in Hampshire Constabulary and more recently as a Forensic Crime Scene Manager/Co-ordinator. Craig has been responsible for the management and co-ordination of scientific services at major crimes scenes, regionally, nationally and internationally.

**Kevin Williams** joined the Metropolitan Police Service in 1989. He served in uniform and detective roles across North London. He qualified as a financial investigator which led to him join the Met’s Fraud Squad in 2000. He then has worked as the staff officer to the head of Economic and Specialist Crime. In 2007 Kevin was promoted to Detective Inspector and ran the Economic & Specialist Crime Intelligence Unit. At this time he led the investigation into the loss of the 2 CD’s at the Child Benefit Agency in Newcastle. In 2008 he helped to build the Police Central e-crime Unit (PCeU) where he was responsible for intelligence, strategy and preparing the e-crime response to the London 2012 Olympics. During this period Kevin was also seconded to the UK’s Cyber Security Operations Centre in Cheltenham. In 2010 he moved to work direct to the ACPO eCrime lead; DAC Janet Williams, where he supported her in her responsibilities for cyber, CT, Security, VIP and Royalty protection during the Jubilee and Olympics. Following his promotion to DCI he returned to the PCeU where he led the National eCrime Programme response for strategic intelligence and industry liaison. In January 2013 Kevin took up the role as the PCeU lead for building the National Cyber Crime Unit of the National Crime Agency alongside SOCA Cyber. In October Kevin transferred to the NCA’s National Cyber Crime Unit (NCCU) where he is currently responsible for partnership engagement with both industry and Government Agencies. He also leads on behalf of the head of the NCCU on building the UK’s law enforcement capability to respond to cyber crime.
