

# #WearingWhite for World Cancer Day

Thursday 1 February

Support the Centre for Cancer Immunology  
by wearing white on 1 February.

Don't forget to share your photos  
on Facebook and Twitter using  
#WearingWhite.

White is for the white blood cell – the hero of  
your immune system and a vital player in our  
new Centre's life-saving treatment.

The cure for cancer? You're it
